Move the playhead to where you want the video to end and click '*Stop current segment here*'. This will set the boundaries of the new video. Click '*Launch Processing*' to create the edited video.

You will see a pop up message telling you that you will be brought to the new video once processing has finished.

Running			
You will be redirected to the new video when the task is finished:	BMGT12345 (1	trimmed)	Pre
	Abort the trimm	ning task	

Once the new video appears, you may want to change the name of the video as 'trimmed' is appended to all edited videos on the media server.

To complete this action, go to 'Edit' on the next screen.
