

Assignment Grade Visibility in Brightspace

There are a number of ways to control grade visibility in Brightspace. It is important to understand these functions in order to release grades and feedback to students at an appropriate time.

If you have graded assignments and published feedback via the inline grader, students can access this information in the *Assignments* area.

The screenshot shows the 'Assignments' page in Brightspace. At the top, there is a navigation bar with 'My Learning', 'Assessment', 'Discussions', 'My Class', 'Library', and 'Module Tools'. Below this, the 'Assignments' title is displayed. A 'View History' button is visible. The main content is a table with the following structure:

Assignment	Completion Status	Score	Evaluation Status	Due Date
No Category	Grade and feedback visible via the Assignment Link			
Assignment 1	1 Submission, 1 File	A	Feedback: Read	

Students can see published grades for assignments, quizzes, discussion boards etc. in their *Grades* area.

The screenshot shows the 'Grades' page in Brightspace. At the top, there is a navigation bar with 'My Learning', 'Assessment', 'Discussions', 'My Class', 'Library', and 'Module Tools'. Below this, the 'Grades' title is displayed. A 'Print' button is visible. The main content is a table with the following structure:

Grade Item	Points	Grade	Feedback
Assignment 1		A-	Overall Feedback Great work!

Students can see overall grades in the *Feedback and Progress* area. View of grades and feedback here is dependent on the settings you apply in assessable tools on the module.

The screenshot shows the 'Progress Summary' page in Brightspace. At the top, there is a navigation bar with 'My Learning', 'Assessment', 'Discussions', 'My Class', 'Library', and 'Module Tools'. Below this, the 'Progress Summary' title is displayed. A 'Print' and 'Help' button are visible. The main content is a 'Grades' section with the following structure:

Grades Received: 1

Assignment 1

Feedback

Last Modified: 05 February 2021 2:30 PM

A

You should choose how to display grades to students depending on how and when you plan to assess students in the module and when you want to release those grades.

Grade Visibility via the Assignment Area

If you are grading assignments using the in-line grader, a student can view their marks in their account on Brightspace, in the module *Assignments* area.

Assignment 1 (Individual)	70 / 100 - A-	1	View Feedback	

Students can see grade details if they are published

If you want to control the view of the grade in the *Assignments* area, you can choose to hide the assignment completely or create a draft of the marks and feedback, publishing to the students when you are happy to release the grades. Review the guide on Grading Inline for more information on this process.

In order to ensure that students cannot see their results for the assignment mark, it is a good idea to hide the assignment link, once all students have submitted their assignments and before you begin grading inline.

To do this, go to *Assessments* then *Assignments*. Click the select arrow beside the assignment name that you wish to hide. Select *Hide from Users*.

 Visibility

If you have associated a grade item with an assignment then you should ensure that the grade item is also hidden from students until you wish them to access their mark.

To do this, go to *Assessment and Grades*. Go to *Manage Grades*. Click the select arrow beside the grade item that you wish to hide. Select *Hide from Users*.

The screenshot shows the 'Manage Grades' interface. At the top, there is a navigation bar with 'My Learning', 'Assessment', 'Discussions', 'My Class', 'Library', and 'Module Tools'. Below this, there are tabs for 'Enter Grades', 'Manage Grades', 'Schemes', and 'Setup Wizard'. A 'New' button and a 'More Actions' dropdown are visible. A 'Bulk Edit' link is also present. The main content is a table with the following columns: 'Grade Item', 'Type', 'Association', and 'Max. Points'. The table contains four rows: 'Indivudal Assignment', 'Group Assignment', 'Final Calculated Grade', and 'Final Adjusted Grade'. A dropdown menu is open for the 'Indivudal Assignment' row, showing options: 'Edit', 'Hide from Users', 'Enter Grades', and 'View Statistics'. The 'Hide from Users' option is highlighted with a red box.

Grade Item	Type	Association	Max. Points
Indivudal Assignment	Numeric	-	100
Group Assignment	Numeric	-	100
Final Calculated Grade			200
Final Adjusted Grade			

Once this option is select the eye icon will appear indicating that the grade item is hidden from students.

The screenshot shows the 'Manage Grades' interface after the 'Hide from Users' option has been selected. The 'Indivudal Assignment' row now has a greyed-out 'eye' icon next to the dropdown arrow, indicating that the grade item is hidden from students. The 'Group Assignment' row is also visible.

Grade Item	Type	Association	Max. Points
Indivudal Assignment	Numeric	-	100
Group Assignment	Numeric	-	100

Important notes

- If an assignment submission is not tied to a grade item then it is sufficient to focus on the visibility of grades via the *Assignment area* only.
- If the folder is tied to a grade item then changes in the visibility of points and letter grade to the student will reflect in the *Grades area* **and** in the *Assignment area*.
